## Coloring and Pasting Worksheets

Rising Sun Institute for Special Children

# Importance

- **Coloring**

Coloring helps children develop good finger grip. It provides an opportunity to practice holding a pencil in a correct way and aid in developing those fine motor muscles in their hands and fingers. It helps in concentration, assists in the development of hand & eye coordination. Coloring has an important place in child's learning progress.

# Importance

- **Pasting**

Children need to develop dexterity and strength. We, as parents or caregivers, can help this process by encouraging children to play, explore and interact with a variety of tasks. Pasting can help them to improve fine motor in a fun way.

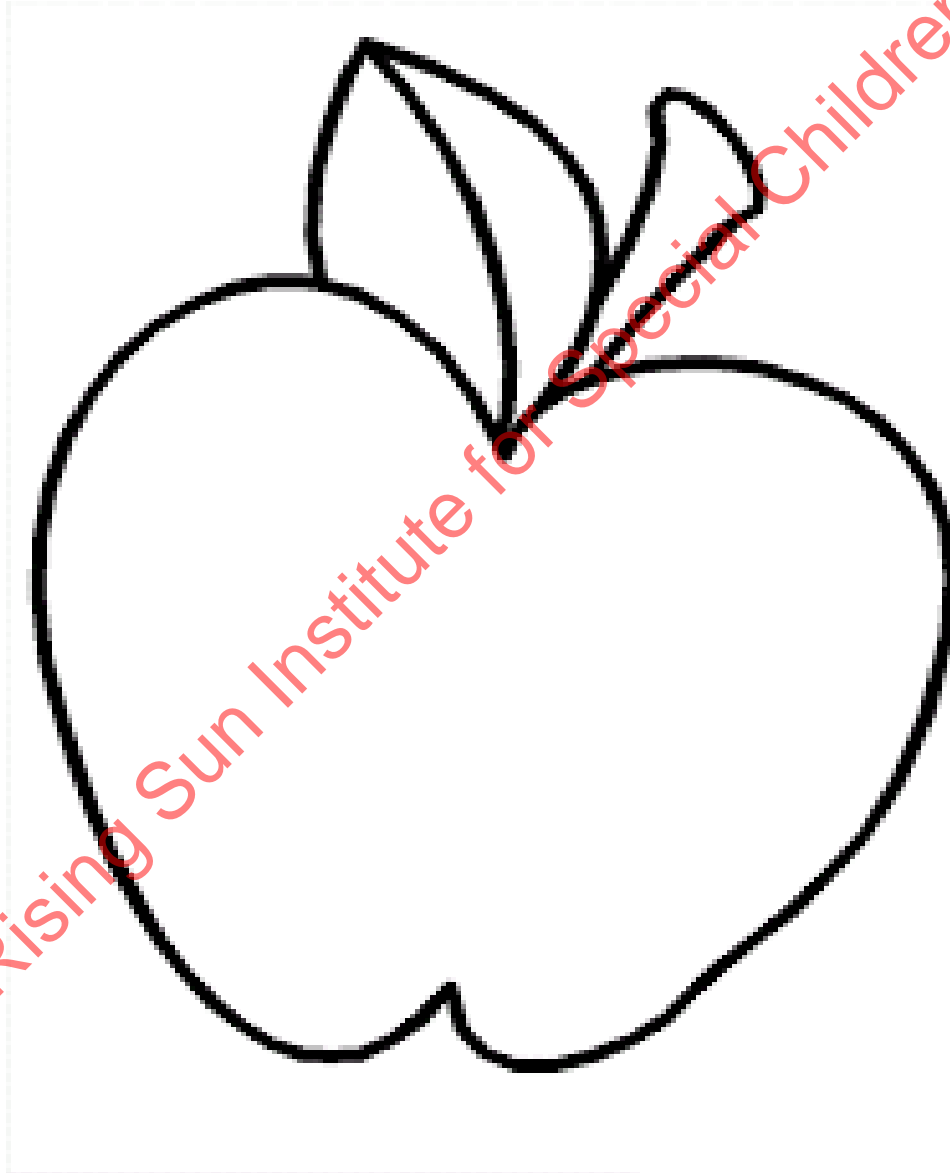

Rising Sun Institute for Special Children

# Simple worksheets for parents
